

I am writing in support of K-LOVE radio. In our area, K-LOVE serves a large population and geographical area that would otherwise not receive this type of programming.

K-LOVE provides our family and many others with access to positive, "clean", music, as well as features that we are interested in.

If K-LOVE were to be replaced by an LPFM broadcaster providing other programming, very few people in our area would still have access to this type of programming.

Christian music broadcasting is a very small niche, and K-LOVE is the only provider of it's kind in our area.

K-LOVE serves the public interest by providing this type of programming that is not available elsewhere.

Please do not allow K-LOVE to be replaced by LPFM.
